147W-480W T5 | 1 YEAR* WARRANTY | IP20 RATING | OP. TEMP -20°C to +40°C | VOLTAGE AC220 - 240V | WIRELESS COMPATIBLE Eye·Wi

- The Warehouse T5 range uses fluorescent lamps to provide a practical alternative to traditional industrial lighting using HID sources. It is especially suited to warehouse and industrial applications and when used in conjunction with lighting controls, can deliver spectacular energy savings.
- Master/Slave Wiring: A mixture of sensor and non-sensor luminiares can be connected together so that the whole run operates in unison based on presence on any one or more sensors.
- Presence detection up to 16m mounting height as an option.
